

Technical sheet

Ref. 215533

45° bent clinching pliers I 60 mm

Seaming pliers are used to create different folds when working with sheet metal. The angled shape makes it possible to create a fold at a difficult-to-access angle.

FEATURES

Metal handle to better feel the fold. Cast steel because it is stronger
Box joint: the two parts of the pliers are assembled on a steel axis by riveting the joint.
The 45° angle enables it to create folds in hard-to-access places.

SPECIFICATIONS

Lenght (mm)	60
Width (mm)	65
Height (mm)	250
Weight (kg)	0,61
Max sheet width / Working width (mm)	60

Technical description

For bending metal at an angle of 45° on a width of 60 mm and depth of 60 mm
Made from cast steel.
Embedded pin.

Actions : To fold

Trades : Metal
